|                   |                          |
|-------------------|--------------------------|
| tinycodetfakepkg2 | <i>tinycodetfakepkg2</i> |
|-------------------|--------------------------|

---

## Description

Bla

## Usage

fun\_overwritten()

fun21()

fun22()

X %opover% A

X %op21% A

X %op22% A

```
rpbase_overwritten(x)
rpbase21(x)
rpbase22(x)
rpbase_overwritten(x) <- value
rpbase21(x) <- value
rpbase22(x) <- value
const_overwritten
const21
const22
```

**Arguments**

|       |             |
|-------|-------------|
| X     | whatever    |
| A     | whatever    |
| x     | description |
| value | description |
